Ladder Tray

Dimensions:
- Heights from 2" (50mm) - 10" (254mm)
- Widths from 6" (150mm) - 48" (1219mm)
- Lengths 10' (3M), 12' (3.6M), 20' (6M)
  - 24' (7.3M), 30' (9.1M), 40' (12.2M)

Finishes / Material:
- Aluminum
- Strip Galvanized (Mill Galvanized)
- Hot-Dipped Galvanized
- Stainless Steel 304
- Stainless Steel 316
- Powder Coated

Features:
- Built to NEMA Specifications.
- Different side rail designs for light, heavy duty and wide span applications.

Accessories:
- Complete line of bends, T’s, intersections, dividers, covers, connectors and blind ends.

Great for use in: Most locations including commercial and industrial with intermediate to long support spans.

GR-Magic Wire Mesh Tray

Self-Connecting

Dimensions:
- Heights from 1" (35mm) - 6" (155mm)
- Widths from 2" (50mm) - 24" (600mm)
- Lengths 10' (3M)

Finishes:
- Electro-Galvanized
- Hot-Dipped Galvanized
- Stainless Steel 304
- Stainless Steel 316
- Powder Coated

Features:
- Self-Connecting GR-Magic requires no connection hardware.
- Light weight, easy to install and modify in the field.

Accessories:
- Complete line of support brackets and hardware including kits to create bends and intersections in the field.

Great for use in: Locations with low voltage, telecommunications and fiber optic cables on short spans.

RKS-Magic Trough Tray

Self-Connecting

Dimensions:
- Heights from 1" (35mm) - 2" (60mm)
- Widths from 2" (50mm) - 24" (600mm)
- Lengths 10' (3M), 12' (3.6M), 20' (6M), 24' (7.3M), 30' (9.1M), 40' (12.2M)

Finishes / Material:
- Strip Galvanized (Mill Galvanized)
- Hot-Dipped Galvanized
- Stainless Steel 304
- Stainless Steel 316
- Powder Coated

Features:
- Self-Connecting RKSM Series requires no connection hardware.
- Solid and ventilated styles.

Accessories:
- Complete line of self-connecting bends, T’s, intersections, dividers, covers, connectors and blind ends.

Great for use in: Locations where protecting cables and maintaining aesthetic is important.
BKRS- Walkable Tray

**Dimensions:**
- Height 4" (110mm)
- Widths from 4" (100mm) - 24" (600mm)
- Length 10' (3M)

**Features:**
- Tray and cover system designed to support heavy loads, stamping feet and more.

**Accessories:**
- Floor mount supports, connectors, dividers and dust protection.

**Great for use in:** Industrial and automation locations, where cables are more efficiently run across the floor.

**Series 6 Trough Tray**

**Dimensions:**
- Heights from 3"(76mm) - 6"(152mm)
- Widths from 6"(152mm) - 24" (610mm)
- Lengths 12' (3.6M)

**Features:**
- Built to NEMA Standards.
- Light weight, solid and ventilated styles.

**Accessories:**
- Complete line of bends, T's, intersections, dividers, covers, connectors and blind ends.

**Great for use in:** Locations where protecting cables and maintaining aesthetics is important.

**Channel Tray**

**Dimensions:**
- Heights from 1.75" (45mm) - 2" (50mm)
- Widths from 2" (50mm) - 12" (300mm)
- Lengths 10' (3M) and 12' (3.6M)

**Features:**
- Openings of various sizes along the length of the tray allow for easy exit and entry of cables.
- Special grommets available for each hole size.

**Accessories:**
- Grommets, covers and connectors. Bends for select sizes.

**Great for use in:** Locations with multiple exit and entry points feeding from or to a main run.
